Stone Age

Bernd Uijtdebroeks & Denzell Mgbokwere

Polymorphism: civilisations

- Code duplicatie
- addItems

Low Coupling: Board

- Funties simple/geen parameters
- Geen dependecies

```
Board
-m ended:bool
-m_currentPlayer : Colour
-m_buildingsCardStacks : std::vector<Building>[4]
-m_civilisationCards : std::vector<Civilisation>
-m openCivilisationCards : std::vector<Civilisation>
-m players : Player[4]
-m_hut : Hut
-m forest : Gather
-m_clayPit : Gather
-m_quarry : Gather
-m_river : Gather
-m hunt : Hunt
-m_toolShed : Toolshed
-m_field : Field
-m_round:int
-m_pickWindows : std::vector<PickRolled*>
+resetWorkers(): void
+feedWorkers(): void
+getOpenBuildingCard(pos : int) : Building*
+rerollBuildings(): void
+buildBuilding(colour : Colour) : void
+newOpenCivCards(): void
+addOpenCivCard(): void
+nextPlayer(checked : int) : void
+payResources(colour : Colour) : void
+addRound(): void
+getToolShed(): ToolShed*
+getHut(): Hut*
+getField(): Field*
+getPlayer(colour : Colour) : Player*
+getGather(resource : Resource) : Gather*
+getRound():int
+getCurrentPlayer(): Colour
+load(json : QJsonObject) : void
+save(): QJsonObject
+getEnded(): bool
+checkStacks(): bool
+end(): void
+checkChosen(colour : Colour) : void
+getOpenCivilisationCard(pos : int) : Civilisation*
+civilizeCivilisation(colour : Colour) : void
+newCivCards(): int
newBuild(building: Building*, pos: int): void <<signal>>
allWorkersPlaced(): void <<signal>>
workersReset(): void <<signal>>
roundChanged(): void <<signal>>
newCiv(): void <<signal>>
-newBuilding(place : int) : void
```

Information Expert : Widgets

Hebben nodige informatie

-m_player: Player* -m_civ: Civilisation* -m_amount: int -m_hasPaid: bool -ui: Ui::PayCiv* +getHasPaid(): bool -editText(): void <<slot>> -on_acceptButton_clicked(): void <<slot>> -on_cancelButton_clicked(): void <<slot>> -totalSet(): int -removeResources(): void

High cohesion: Player

- Functies over player
- Information expert

```
Player
-m_foodCount : int
-m woodCount : int
-m_clayCount : int
-m_stoneCount : int
-m goldCount:int
-m_buildingCount : int
-m scoreCount : int
-m foodGain:int
-m_colour : Colour
-m_freeWorkers : int
-m_workers:int
-m tools : Tool[3]
-m extraTools : std::vector<int>
-m_civBonuses : int[6]
-m_farmerCount : int
-m toolMakerCount:int
-m_hutBuilderCount : int
-m_shamanCount : int
+addResource(resource : Recourse, amount : int) : void
